A fire, supposed to have started through spantaneous combustion, broke out in the after hold of the s.s. Yik Sang, in which coal is stowed, on the 5th August. The continual blowing of the steamer's whistle called the police pinnace, and when Inspector Langley learned the cause of the disturbance he signalled to the Tsimchatsoi police station for a relay of men. These were soon on board, and with the assistance of the crew, flooded the hold, and thus overcame the fire. As far as can be seen at present, the damage to the ship is trifling.

### GERMAN TROOPS IN CHINA.

(Daily Press, 8th-August.) An unpleasant sensation, says the Times, has been caused in German: by an action tri d at Halle in which Herr Kunert, a Reichstag Deputy, was charged with libelling the officers and soldiers who served with the German East Asiatic force, in one of his election addresses. The words complained of were: "Our soldiers devastated the land and plundered and ravished women." Such other country, except, of course, Russia, not the charge were true. It is quite true not seem to have been the line pursued. The witnesses of standing whom he desired to bring into Court, amongst whom were and who was well acquainted with the position of affairs. Enough was, however, eliminated to show that as a fact Herr Kunfra's statements were justified as to what had actually taken place, and though he might have been guilty of indiscretion, or even worse as to the time and manner of utterance, that was apparently not the case before the Court. Herr Kuneur as the result of the trial was sentenced to three month's imprisonment, not on the ground that his statements were false in fact, or malicious in intent; but that they were a refl ction on the whole German Army and, more extraordinary still, the Court held that outrage was a necessary element in war. Such a doctrine openly announced from such a position seems to have startled even that most submissive of nationalities-the

Now in affirming the truth as a matter of fact of Herr Kunert's asseverations, we are not to be taken as accusing the German Army: with that we have nothing to do. When we come to hard facts, it is, however, undeniable that the European troops landed in North China in the autumn of 1900 did commit unmentionable atrocities, and that in these atrocities portion of the Greener troops took part. It is also certain that those atrocities were preventible, and that no charges were made of similar misconduct in the case of the Japanese or English contingents. The military occupation of Pechili in 1900 is not, perhaps, a thing of which those immediately concerned have any cause to be proud. In many respects it resembled the Crusades of the twilfth century; the same high pretensions in its conception, the same miserable exhibition of ineptitude and jealousy, not unmixed with open fraud and spoliation in its progress; the same inane ending with nothing accomplished, except the general lowering of the standard of honour amongst the nations of the West. In a race for filthy Incre, where all distingui hed themselves, it is no dispuragement to own that Russia won easily, but Germany was not in the end far from the gaol; and both displayed a marked desire to linger I round the scenes of their not altogether glorious achievements. #### BOERS IN GERMAN AFRICA.

(Daily Press 11th August.)

After the termination of the war in South Africa, some of the Boers trekked into German territory where they were received with open arms. The press in Germany welcomed them as pioneers of civilization and most desirable settlers, and the Colonial Society of Berlin has since then been using every endeavour to promote Boer immigration. It appears, however, that the Africander has greatly disappointed his admirers, and that indiscriminate admission of Boers is meeting with strong opposition on the part of the other colonists. At a meeting of the Pagani branch of the Colonial Society the matter was fully discussed, and the following resolution passed and forwarded!

to the central office in Germany:

"That an urgent appeal be addressed to the managing committee in Berlin to desist from further advocating and assisting Boer immigration to East Africa, as the Boers had so far lived entirely on the game of the country, in the destruction of which they had proved themselves most unscrupulous, utterly disregarding the existing regulations for the protection and preservation of wild animals. They had made no attempt to build homesteads or to cultivate the soil, and all but those blindly prepossessed in their favour, agreed that their civilizing labour had been nil; it was not the German that had to be taught by the Boer, but vice versa! # HONGKONG SANITARY BOARD.

A meeting of the Sanitary Board was held on the 8th August in the Board Room. Dr. F. Clark (President) presided, and there were also present Hon. Mr. W. Chatham (Vice President), Dr. Pearse, Dr. Macfarlane, Mr. E. Irving, Mr. F.J. Badeley, Mr. Fung Wa Chun, Mr. H. W. Slade, Mr. A. Rumjahn, and Mr. W. Bowen-Rowlands (Secretary).

THE HEIGHT OF BUILDINGS.

The recommendations of the committee appointed to consider in what cases buildings should be allowed to exceed a height of 76 feet first dealt with the type of building, stating that exemptions from the provisions of section 188 (5) of the Public Health and Buildings Ordinance 1903 shall only be granted in the case of hotels and large blocks of offices of European design. Regard shall be had in every case to the obstruction of the light of adjacent and of opposite properties, as well as of the building itself, and this shall be secured by the setting back of any portion of any storey which is more than 76 feet above the level of any side street or of the back yard of the building, so that it shall fall within a line drawn, at such level, at an angle of 63.5 deg. with the horizon. In no case shall the height of the building exceed one and width of the street on which the building fronts section 188 (4) . Not more than six storeys shall be allowed in any case, and with the exception of two caretikers to each storey, only the than 20 feet in height. No modification of terms of section 138 in respect of verandahs at the side or rear of such building shall be granted in these cases, and where any street at the side or rear of such building is less than 50 feet in width, no balcony shall be projected therefrom

The following memorandum was submitted

ings is the proper lighting of the ground and lower floors. Darkness necessitates artificial light, and it is always accompanied more or less by dirt and dustiness. A house in Hongkong erected on land obtained from the and Buildings Ordinance may be fairly compared with a house erected under the London Building Act on streets formed after 1894. Also a limite erected in this Colony after the passing of the present Ordinance, but on land obtained bafore the passing of this Ordinance, may be fairly compared with a house erected in London under the 1894 Act on streets formed from 1862 to 1894. It appears that to regulate the height of new buildings on old sites in Hongkong by the width of the streets alone is liable to have very serious effects upon the lighting and ventilation of the city. If the height of a house is governed merely by the width of the street on which it fronts, and if the limitation of the height of storeys to 15 feet be only insisted on in the absence of special strength of walls, and be modified at once if the house be so bu'lt as to render it strong enough to have storeys of over 15 feet high, or in other words if the Ordinance be mechanically administered without due regard to the sanitary questions of ventilation and illumination, the condition of houses in Hongkong in these respects will be far behind comparable houses in London. Properly, in a tropical dity. especially in one so unfortunately situated for matters of lighting and ventilation as is the kity of Victoria, more effort, should be made to obtain the beneficial effects of open space. The more buildings erected to excessive height, the greater will be the danger from overcrowding, with its accompanying dirt and disease. Where dealing with houses to be erected on land obtained from the Crown subsequent to the passing of Ordinance I of 1903, the law requires that no house shall be erected to a greater height than the width of the street in which such house fronts. This law then fixes a minimum standard as necessary for the effect of the height of buildings, otherwise this regulation would have no raison d'etre. It follows, therefore, that there is an objection on sanitary grounds to buildings exceeding the height limit. On the grounds of expediency, then, objection has been waived in the case of houses erected and to be erected on ground leased before the passing of this Ordinance. An impartial consideration, it is trusted, will make it clear that the limit to the height of buildings should not be exceeded except under the following circumstances:—(1) When the building is so situated in the midst of open space, which cannot be built over, that its extra height will not affect the access of light to any of its windows; (2) Unless, as a compensation for the effect of the extra height in lessening the lighting of the building, there be a setting back of the floors in the manner provided for under the London Building Act: (3) When the extra height of a building will not deprive any neighbouring building of any of the light it would enjoy if permission for the extra height had not been granted! (4) Where the building is not a tenement house as defined by Ordinance I of 1903; (5) Unless under a condition that such building he reduced, at the expense of its owner, to the height only to which it might have been erected, had permissing for the extra height not seem granter, upok 1.5 owner being called upon so to do by the Government.

Mr. CHATHAM moved as an amendment to the second recommendation that the latter part thereof from "shall be secured" be deleted. | He said—The effect of this recommendation, if adopted, would be that most buildings fronting on wide streets could not have a square elevation to that street.

Mr. SLADE seconded the amendment.

Dr. PEARSE-I should like to draw the attention of the Board to the fact that if the height of buildings is not governed by some definite rule, the Board will not be in a position to tell owners of property under what conditions they may or may not raise their buildings higher than 76 feet. Perhaps the Hon. Director of Public Works has got some other scheme which he could Juggest.

THE PRESIDENT-This amendment brings us back to the original clause, and it was in reference to the wishes of the Medical Officea of Health that this particular clause wrs

added. There should be some definite rule laid down to guide officers of the Board with regard to matters falling under clause 2.

Mr. Rumjahn proposed that the report be adopted and a copy forwarded to the Governor. Mr. BADELEY seconded the motion, which was agreed to, the amendment being lost.

DEFECTIVE DRAINAGE.

The Sanitary Surveyor forwarded a report on the drainage at the rear of I. L. 1569.

Mr. Rumjahn-It appears from that report, | called for by me, that the drainage system at the rear of that Lot is defective, and that a | same. nuisance exists there. This defective drain has! been in existence for some years. I think kong: but in Australia they are considered high. it would be advisable for the Board to divert the flow of sullage water of these 22 houses into another trap to be placed at the other end of this surface channel which would have the effect of entirely remedying this defect. The surveyor further states that this drain was built on the system recommended by a committee. I was on that committee and say that we never recommended small drains to carry off storm water. I hope the board will see that this defective drain is removed.

The President-Will it meet your views if the matter is referred to the Sanitary Surveyor to report as to whether a six inch drain is adequate. He is competent to answer the question.

Mr. Rumjahn-We won't say anything about his competency, because he is only acting.

MEAT INSPECTION.

Mr. Rumjahn moved that the Captain Superintendent of Police and the Colonial Veterinary Surgeon be appointed a committee to report as to local inspection of cattle and meat.

Mr. Fung Wa Chun seconded. Carried.

A QUESTION OF COMMISSION.

The Sam Choy Brick Tile and Timber Company sued the Wing Wo Company for \$377.92 being balance due for goods sold and delivered.

Mr. R. F. C. Master (of Messrs, Johnson, Stokes and Master) appeared for the plaintiff, while defendants were represented by Mr. C. E. H. Beavis (of Messrs. Wilkinson and Grist).

Mr. Beavis stated that the sole question between the parties was one of commission, and of accounts.

Mr. Master put in a document by which defendants admitted a debt of \$6770.66 on June 20, 902. Mr. Master desired to start the accounts from that date as then the accounts |

Mr. Beavis said that his clients had paid the \$6770.66, and asked that the accounts be taken from 1901. He was prepared to prove that in 1901 the accounts were squared: since then they had never been adjusted.

BEFORE SIR F. T. PIGGOTT (CHIEF JUSTICE).

E. H. MURRAY v. G. H. WAKEMAN. The plaintiff, Edward Henry Murray, coal

merchant and commission agent of No. 4 Duddell Street, sued the defendant, the trustee in bankruptcy for the Wai Ynen firm, for the return of the steam launch Competitor, or payment of its value, \$5,000:

Mr. H. N. Ferrers, instructed by Mr. P. W. Goldring (or Messrs. Brutton, Hett and Geldring) represented the plaintiff, and Mr. H. E. Pollock. K.C., instructed by Mr. C. F. Dixon (of Mr. Hastings' office) appeared

for the defendant. In opening Mr. Ferrers read the statements of claim and defence. The plaintiff stated that a bill of sale was executed on the steam launch and the vessel was handed over to the plaintiff, but the vessel was subsequently seized by the Trustee in Bankruptcy. The defence was that the launch was the property of the Wei Yuen firm (in bankruptcy). In the Wei Yuen firm were two partners, and the launch was never the sole property of either of them. The bill of sale was not a valid one, and the \$5,000 was not paid by plaintiff. The launc't was seized by the defendant forcibly in Canton. Mr. Ferrers said the facts that the plaintiff would establish were that he entered into a partnership with Su Wei Chin, under the name of E. H. Murray and Company, as coal merchants and provision dealers. The plaintiff was an American citizen and had a good deal of influence with the American Navy in the Philippine Islands, and his object was to use that influence for the purpose of obtaining contracts for coaling American warships and in the supplying of provisions for the American Government in Manila partnership was commenced in March 1904 Plaintiff spoke no Chinese and his partner spoke no English which necessit ted the service of an interpreter, Kwai Pak being employed for that purpose. plaintiff was successful in getting an offer of doing but ness with the American Navy and the Philippine Government, but he found that the actions of his interpreter, Kwai Pak, were such that they led to his forfeiting the contracts he had with the American Government especially with regard to supplying coal. The contract was for the supply of Chinese coal suitable for men-of-war, but the coal supp ied to the San Francisco was of so poor a quility that The Puisne Judge-Well, you will have to it was rejected. That was one instance of several, and the plaintiff's hopes of being able to make a prosperous living were unrealised Plaintiff then informed Kwai Pak that he intended to proceed against him for compensation. but Kwai Pak, recognising the validity of the plaintiff's claim gave him a promissory note for \$5,000 in settlement thereof. Shortly afterwards it came to Mr. Murray's know. ledge that Kwai Pak had a steam launch at his disposition and plaintiff agreed to take it in settlement of the promissory note for \$5,000. The launch was handed over and the promissory note cancelled. The bill of sale for the launch was executed on January 27, and at that time plaintiff had no knowledge that Kwai Pak was not entitled to the full services of the launch.

BEFORE SIR F. T. FIGGOTT (CHIEF JUSTICE: AND MR. A G. WISE (PUISNE JUDGE).

A QUESTION OF OWNERSHIP. RE LAM TUNG AND THE NAM LOONG FIRM. Their Lordships' reserved judgments in this matter were delivered.

His Honour the Chief Justice said:-This was a motion to reverse the judgment of the court below on the trial of this action, and to enter judgment for the defendants. A motion was made to admit further evidence, on the

The question then is, was this evidence excluded in the Court below by reason of a technical objection: Without doubt, No. The evidence was excluded by an order of the Judge in Chambers: there was no appeal from that due on money lent. The defendant has not found the receipted bill which he had lost; he has found out the step which he ought to have taken. If the remedy is gone in the one case, it is certainly gone in the other. In this respect the rule which prevents a person recovering money, which he has paid under compulsion of law, cannot be different in principle from that which governs the admission of fresh evidence on appeal. The reason for applying that principle in this case is the stronger, because there was another application which the defendant might have made at any time before the conclusion of the trial, but which he did not make. The conclusion to which I come from these cases is that where the judge has indicated that the absence of certain evidence has had a material effect upon his refusal in that case were, that 'the appellant; the strength of his application lay in the fact below: that he might have shaped his case been excluded; and to such desperate straits was better." The plaintiff was a cook on a French steamer which left Saigon on August 20th, and arrived in Hongkong on the 26th August, 1904. As a passenger on beare the same steamer was a man named Chad Kwong, who according to the evidence, had been acquainted with the plaintiff for some years.. On the arrival of the steamer in Hongkong the said Chau Kwong was arrested on the application of the Fre ch authorities as being concerned in the above mentioned burglary. The usual extradition proceedings followed and, in due course, Chau Kwong was handed over to the French authorities, and afterwards convicted and punished. E. H. MURRAY v. G. H. WAKEMAN. The hearing of the case in which the plaintiff claimed from the defendant, the trustee in bankruptcy for the Wai Yuen firm, a sum of \$5,000. in default of returning the steam launch Competitor, was continued.

Mr. H N. Ferrers, instructed by Mr. P. W. Goldring (cf Messrs, Brutton, Hett and Goldring) represented the plaintiff, and Mr. H. E. Pollock. K.C., instructed by Mr. C. F. Dixon were not going to discharge at that port and (of Mr. Hastings' office) appeared for the defendant.

When the case was resumed yesterday the Chief Justice said-There is a document which purports to have been executed on January 26. and it bears a stanfp dated January 30. I wish ! to deal with this decument as it stands irrespective of the evidence. At first I thought of ordering it to be stamped and impose the penalty, under article 8 of the Stamp Ordinance, but I see that Bil's of Exchange and Promissory Notes, etc., "shall not be stamped after execution." Therefore there would appear to be an offence under section 23. It is the duty of the Court to act in aid of the revenue, and not to receive a document like this. Unless the Counsel for the plaintiff can show why it should not be done I cannot reserve the document.

Mr. Ferrers-The document was drawn up on January 27, stamped on the 30th, and executed afterwards.

They then put him in a chair and took him to the Central Police Station. He was there seen by the Inspector on duty and immediately sent to the hospital, where Dr Bell examined him and found his skull badly fractured. It was impossible to do anything for deceased, who never recovered consciousness and died the same night. It seemed quite clear that accused caused the death of the gunner, and Mr. Bowley asked His Wcrship to commit him for trial at the criminal sessions.

William Bissell. assistant engineer, Public Works Department, gave evidence as to prepar-

ing a plan of Battery Path.

Company Quartermaster Sergeant Crane of the 88th Co. R.G.A. deposed: The deceased gunner, Richard Sampson, was a member of my company, in which he had served for eight years and mine months. The 88th Co. reached Hongkong on 14th December last. Shortly after his arrival deceased joined the garrison police. There is nothing against him on the record of his company that I am aware of.

In cross-examination—I have known the deceased for about four years. I knew him in Malta and Ceylon. I do not know whether he was a teetotaller, but never saw him take a drink. I know nothing of deceased's character regarding women, but according to his attestation he was unmarried. The company feel very strongly about this case; the feeling against

the accused is rather vindictive.

Sergeant Gillespie was next called. He said-I am sergeant in charge of the military police at Hongkong. Gunner Richard Sampson was a policeman from December last until the date of his death. On the morning of the 16th July deceased came off duty from the Meance on which he had been for a week. Between seven o'clock, after he was dismissed, and 9.45 o'clock, he could go where he pleased. After the 9.45 parade deceased was on patrol duty at the eastern end of the town. When I was going my rourds that night I saw him at the corner of. Arsenal Street and Queen's Road East. I was in his company until 11.30 p.m. and his patrol duties finished at midnight. At this time he should return to barracks and report at once. After midnight the military police are not allowed out of barracks. At 3 a.m. on the morning of the 17th July, in consequence of a telephone message received, I searched the barracks but could not find the deceased. I next saw him at the Government Civil Hospital in an unconscious condition.

On the evening of 16th July I went on patrol duly with gunner Sampson. We arrived home at 12.10 a.m. and I reported to the Sergeant that all was correct. During the time we were on patrol duty gunner Sampson had a glass of beer at the Praya East Hotel. Between seven and eight o'clock he had two pints of beer in my presence. He was sober when he went off duty, and returned to barracks.

CHINESE BOY'S STORY. The hearing of the charge of manslaughter preferred against Aaron Ellis, tailor's cutter, in connection with the death of Guuner Richard Sampson, R.G.A., was continued before Mr. F. A. Haz-land at the Police Court on August 9th.

Defendant came in at 10 p.m. that same spot which they examined and left. When evening accompanied by two girls. I do not! I saw these different people going up Battery know their names. The defendant and the Path I was standing in front of the Hongkong

Government Civil Hospital, gave the following testimony:—On the morning of the 17th July, the last witness and a quarter long, and parallel to the eyebrow. He was also vomiting badly, and died at 9 p.m. the same day, never recovering consciousness, The vomit was a cark looking fluid like bile, and showed no signs of food. At noon on the following day I held a postmortem and found immediately under the wound on the left evebrow a fracture of the skull, extending down to the base. On the opposite side, also at the base and on the surface of the brain, there was a large clot of blood. The man died, in my opinion, from this injury. The large clot of blood would be caused by the rupture of a blood vessel, and the same cause would produce the fracture and the clot. The vomiting was due to cerebral disturbance. I noticed no other injuries, but the cartilage of the nose was turned on one side. All deceased's internal organs were healthy. The symptoms I noticed would all be traceable to the wound over the left evebrow. The fracture was a very bad one, and I do not think it could be crused by a blow from a man's fist It could be caused by a fall on a concrete path, and probably was. I know the granite kerb on the edge of Battery Path. This injury could have been caused either by striking that kerb or the path. I do not think a blow with this (the soldier's) stick could have caused the injury, but it could have been caused by a blow from a heavy instrument. It is possible, but not probable, that had the injury been occasioned by a fall the man might have walked after receiving it.

In cross-examination-In a natural and straight fall, such a fracture as the one mentioned could be produced, but the man would have to pitch right forward. There was nothing in the condition of the cut to lead me to ordinary skull, and the fracture was unilateral. A slight concussion would cause vomiting, but liquor would not affect the case. If a man were

under the influence of drink sufficient to make his legs unsteady he would fall more heavily and more directly. Assuming deceased to have received a blow sufficient to cause slight concussion, and assuming that he had subsequently got up and moved up Battery Path and then been seized with vomiting, there is no reason why he should not have had such a fall as to cause the injuries received, that is, assuming that he fell down the path. He could not have received these injuries had he fallen when running up the path.

Re-examined -- It is impossible to say whether

there was a previous concussion.

Mr. Bowley-Supposing dec ased was walking up Battery Path with his stick under his left arm and a pipe and box of matches in his left hand, and the defendant ran up from the back and spoke to him, and that the deceased turned round suddenly and struck at the defendant with his right hand, but the defendant dodged the blow and getting in underneath his right arm, struck deceased on the face with his right hand and on the body with his left with the result that deceased fell forward on the left side of his face, could such an injury have resulted?

Mr. Goldring-I object to the question. Your Worship, as it does not arise out of the cross-

examination.

Mr. Bowley-My friend asks a question as to the supposition of a man being hurt if he fell in a certain way: surely I am entitled to ask what might happen supposing he fell another way.

Mr. Goldring—I submit that it is not at all

the proper course. Mr. Bowley-My friend has started an entirely new theory not arising from any evidence put in, and I submit that on that theory I am entitled to put another theory.

Mr. Goldring-I submit, Your Worship, it is not at all fair or proper.

His Worship-I think Mr. Bowley was entitled to put that question in his examination in chief. That being so, I should allow it to be put through the court.

Mr. Goldring-If my friend is going to be allowed to examine witnesses over and over again there will be no end of examination.

Mr. Bowley-I think, Your Worship, I can put the question through the court. It is a very common practice indeed.

Mr. Goldring-It is not a common practice

unless it is done by consent. His Worship—It is not necessary to have

consent, and I think I will allow the question to be put through the court.

Mr. Goldring. Will Your Worship make a note of my objection on the grounds that the quest on does not arise out of cross-examination ?

His Worship-I will make a note of it, but at present will allow the question. What I have got to decide now is whether a prima facie case has been established against the defendant at the close of the trial. The question of manslaughter is excluded from the jurisdiction of a magistrate.

Dr. Bell answered the question in the negative, and the case was further remanded.

DEFENDANT'S STATEMENT. Aaron Ellis was again arraigned before Mr. F. A. Hazeland at the Police Court on Aug. 10. when the hearing of the manslaughter charge preferred against him in connection with the death of Gunner Sampson, R.G.A.. at Batterv Path, was continued.

Mr. F. B. L. Bowley, Crown Solicitor, prosecuted, and Mr. P. W. Goldring (of Messrs. Brutton, Hett and Goldring) represented the

defendant.

C. H. Griffiths was next called. He said—I am a private in the A.O.C. On the evening of Sunday, 16th July, I was at St. Patrick's Club, and left between 12.30 and 12.45 a.m. Corp. Le Grove and Sapper Moriarty were with me. We passed the Cathedral and went down Battery Path. There we saw a so'dier lying across the pat4; his head was towards Queen's Road, and he was lying nearly on his stomach. I noticed blood on his face. In cross-examination-When deceased was ! brought to the Central Station his vomiting . led ne to think he had been drinking. He also

smelt of beer.

Chief Detective Inspector J. Hanson, sworn. stated.—In the billiard room of the Hongkong ! Hotel on the 28th ult. I arrested the defendant! on the charge of the murder of deceased. On the following morning defendant and his solicitor were in my office. Defendant made a statement to his solicitor, which I saw Mr. Goldring | write down. The defendant signed the statement and Mr. Goldring, after witnessing it, handed it to me I returned it to him in order that he might refer it to the Captain Superintendent of Police. The statement was made voluntarily, and no inducement was held out to the defendant to make it, neither was pressure brought to bear by any police officer.

The Crown Solicitor read the statement,

which was as follows:—

On the evening of July 16th, 1905 (Sunday). was with friends in the Hongkong Hotel until closing time. Among others there were Inspector Withers and Mr. J. Quinn. Steward of the Hongkong Club. When the hotel closed. went outside, and stayed there talking with friends for some minutes. I left them about 12.39 a.m. and rode back to the door of Thomas' Hotel Annexe, in Duddell Street. The night in question was clear; to keep things quiet for the sake of my father and mother, who are very old.

Major Parry stated—I am commanding the 88th Co. R.G.A., which I joined in October, 1902. Gunner Richard Sampson was a member of the company, which came to Hongkong last December. As officer commanding the company. I have custody of the company defaulter sheets of the men. The defaulter sheet produced is the company defaulter sheet of deceased. These sheets show every offence for which a man has been punished as well as all cases of drunkenness. The date of issue of the sheet before the court is the 30th November, 1896, and only one offence is recorded thereon against Gunner Richard Sampson. The offence is stated to be, drunk when parading for his monthly settlement about 1 p.m. This occurred on the 30th April, 1904.

In cross-examination—Promotion depends entirely on intelligence. A defaulter sheet gives a man's military character, and it is quite possible that there might be occasions when men got drunk without it being known

officially. By drunk I mean unfit to do duty. Wong Nam, ward boy at the Government Civil Hospital, gave evidence as to the deceased's arrival there, and as to the subsequent search of his clothing. in a pocket of which he found 80 cents.

From the Metropole we arrived at the Owl Grill Room about eleven o'clock. The defendant was not there. Miss Radcliffe joined me at the Grill Room and we two left about ten minutes to twelve and went for a ricksha ride which culminated in meeting the soldier. During the past half-year we have installed the electric drive in the boiler shop and shipyard with satisfactory results. Several more motors will be required for this department before it is complete. Two new electric cranes have been fitted in the machine shop. The new drawing office at Kowloon is practically completed and the entire technical staff of the company is now located there. Canton, 4th August. OPIUM DUTY RE-IMPOSED.

The duty is again to be levied on prepared removing barriers for the Imperial Chinese opium in Kwangtung province. Owing to Maritime Customs, for which work she is still difficulties experienced by the Provincial under charter. Further employment at Canton Treasury in meeting the enormous public expenditure, Viceroy Shum. I hear, has given instructions to Lo Ping-Ching, a member of the Sin Hau Kok, to replace the tax of three mace per tael on all prepared opium. This small duty was imposed for many years, until the Crude Opium Monopoly was granted to the Kwong Hing Company about three years ago. This Company was floated by the late Wong Chuk-yau, compradore of E. D. Sassoon and Co., Hongkong. They applied for the right to impose a tax on crude opium after it passed the I. M. Customs, paying likin of \$200 per chest. I believe the Kwong Hong Co's tax was about the same per chest. Foreign merchants in Hongkong and Canton naturally protested, and the 00.000.00

Chamber of Commerce at Hongkong took up the, matter. Mr. James Scott, the British Consul, wrote a strong protest to the Viceroy, calling it an unreasorable increase, and a clear contravention of the Chefoo treaty. When in due course the British Minister introduced the matter to the Wai-wu-pu, the tax was abolished. The Farm ceased to pay, and the Company became insolvent, the compradores and merchants interested suffering considerably. It is needless, perhaps, to add that the Kwong Hing Co, never recovered a cent of the million dollars they had paid to the Chinese Government for the concession.

Yesterday King Shun-tong, head of the prepared opium guild, called at the Sin Hau Tok and had a three hours interview with Lo Pingching. The result is not yet reported.

CHINESE GOVERNMENT ENTERS CHMENT

BUSINESS. The Government has deputed Li Yuen-mui an expectant magistrate, to inspect the Fi Shii Ngam (Bat Cave) quarry at Fa Yuen, and vicinity, to see if the local quartz and granite are suitable for cement making. If his report be favourable, the Government hopes to make a large sum annually by making coment. MEMORIAL BY GOVERNOR CHANG: A DEATH

BY JUDICIAL TORTURE. In the first moon of this year, Mak Ah-sui was arrested and tried by the Provincial Judge Ching Yee-lok for armed robbery, and sentenced to death. Under Chinese law, copies of evidence. written confession, etc., must be seen by the Viceroy and Governor before sentence is executed. In this case, no evidence was taken, and only a confession sent up. The Viceroy approved, but Governor Chang reversed the sentence, and pointed out that the "confession" denied carrying arms or weapons. The case went to Li Tsun, secretary of the military yamen, and then the prisoner pleaded absolute innocence Li Tsun, disgusted, sent the case on to Lau Ching-hon, expectant magistrate, before whom a man just arrest d swore that he was an accomplice in the armed robbery with Mak Ahsui. The latter stuck to his plea of innocence through four days of frightful toriure, and on the fifth day he died. An enquiry proved that the man had died as a consequence of the tortures to which he had been judicially subjected, and when questioned, Magistrate Lau frankly the Throne.

CANTON, 5th August. CHARGES AGAINST CHINESE COMMANDER.

His Excellency Vicercy Shum bas been; receiving repeated reports and complaints that Colonel Yung Hong-peaw has misappropriated large sums of mon'y from the Po Wai Ying. A few days ago, without any warning, he sent a deputy to seize the books of that station: and expert accountants are now going through them. The Po Wai Ying (station for protection). which is near the I. M. Customs, was established about four years ago, on Colonel Yung's recommendation, to protect junks towed by steamopened. Each junk was supplied with four to inflict capital punishment soldiers armed with Mauser rifles, who stayed will consider and decid : on the towing launch. Ten per cent. of the passage money was paid by each junk in return for this protection.

HELPLESS GODS. On the 3rd inst, all the Josses in the Cheong Sau Temple (lately seized by order of the Viceroy) were taken outside and burned, under the supervision of a non-superstitions person called Sau Ming Pok. For some days beforehand, the monks were busy spreading the rumour that the Gods had heard of the order and were very angry, and that the recent earthquakes were sent by them as warnings. All who helped to destroy them were to perish of the plague, which would moveover devastate the neighbourhood. Naturally, those who believed in their power at once put a considerable distance between themselves and the scene of such impiety. They will probably come back when they hear that the priests weer lying prophets.

PRISONERS AND THE HEAT: MANY DEATHS. Thousands of those confined in the prisons of Kwangtung have died as a result of the moon to this port on the 23rd ult. The details weather. In Ching Yuen prison alone, the of the mishap and the amount of the loss number of fatalities is put at hundreds. SILK WORM CULTURE. I am informed that the prospects of the silk worm industry are very alarming. The mulberry trees up country have been attacked by millions of worms called "cao mo" which breed so fast that before one lot can be destroyed, the next is devouring the leaves, and leaving a remission of penalty, but instead, the strip them. The price of mulberry leaves has risen to over two tacls per picul now in consequence, and the silkworm rearers are facing heavy losses.

MORE WORK FOR YUEN SHI-KAI.,

An official telegram from Peking to-day states that the Imperial Council intends to place the undermentioned six provinces under the control of Yuen Shi-kai (Viceroy of Chihli): -Shantung, Shansi, Honan, Shengking, Kirin. and Helungkiang.

GERMAN CONTRACTOR UNDER ARREST.

The German railway contractor who is alleged to have murdered a railway guard named Lau Chung-ting in Yunan has arrived in Canton. Tsun Yin, the deputy who brought him, handed him over to the Namhoi Magistrate on Saturday, and he was at once transferred to the custody of the German Consul. He now awaits trial on the charge.

A DEAD DEFAULTER.

Tit-sai. ex Hoppo The late Chau treasurer, was, prior to his death, ordered by Viceroy Shum to submit his accounts in full, as there was talk of an enormous deficit. The family of the deceased is now "under vigilant surveillance", or practically under arrest. GAMBLING

I hear that by order of the Viceroy of Canton. all sorts of gambling, including lotteries of all kinds, have been stopped in Limchow and all its dep ndencies. This is a step in the right direction and is appreciated by the industrious section of the population. But what will become of the hundreds of the professi nal gamblers? They know no art or industry. and are just the class to swell the list of robbers and pirates.

LOSS OF A JUNK WITH VAL ABLE CARGO. Telegraphic information has been recrired here by the principal of the Cantonese Guild that a junk laden with silk piece goods, native cloth

and other produce of Canton, valued about Tls. 200,000 had foundered on her way from Kongsustained by the parties concerned are yet to on account of the great difference which exists between the native and the foreign customs who tariffs.

EXECUTIONS. Of the batch of twenty-eight robbers arrested at Tonkin and brought over here the other day. two of the leaders have since been decapitated at Limchow. They had made no attempt to conceal their guilt nor offered any extenuating circumstances with the view of obtaining the trees as bare as ever winter wind could | first of the two (Lum-chong-xit) is said to have openly declared that he had been a robber since he was a mere lad, and he also accused the other man of having killed the late Loong-moonhip-t'oi (a Brigadier-General) last year, to which accusation Kait (ai is said to have nodded when the question was put to him.

BIRTHIAY CELEBRATION. The 28th ultimo was the birthday of His Celestial Majesty Kwoong Tsu. The Custom House was closed and the day was observed a general holiday. The dragon flag was prominent everywhere. The Chines gunboat Kwong Kum dressed ship and at noon fired a royal salute after the westerners styl. Bunting was to be observed on several housetops during the day and lanterns of variegated tints were exhibited at night over the doors of some of the shops. This is the first time within my recollection that such a display of faithfulness was ever shown by the subjects of His Celestial Majesty at this port of anywhere in the Empire.

#### FOREIGN IRON WORKS IN JAPAN.

BIG PROFITS.

The eighteenth annual general meeting ef the Yokohama Engine and Iron Works, Ltd., was held at the offices of the company on the 28th ultimo. 'I he chairman (Mr. B. C. Howard). in moving the adoption of the annual report and balance-sheet, pointed out that the net profit for the year was Y38,320.80, against Y10.867.00 for the previous year, which must be considered a very satisfactory showing. The usual percentage \ for depreciation had been written off buildings, plant, and machinery, but the steam launch account remained the same as the launches were kept in a thoroughly efficient state of repair and were lentered on the books at a low valuati n Material in stock showed a slightly higher value than last year, and the bank account was in a much more satisfactory condition. The balance at credit of profit and loss account for division amounted to Y51,93535, which was so satisfactory that the directors considered it a good opportunity to start a reserve fund, and they recommended that a sum of Y20,000.00 be carried to that account as a commencement. A dividend of Y10 per share was proposed, the balance Y5,935.35 to be carried to new account. In a business like ours," a lded the Chairman "there are always great fluctuations, and until peace is proclaimed the return of trade must be more or less uncertain. It will, therefore, be the policy of your directors to keep in view the sound financial position of the company, and they hope to be ab'e to recommend additions to the reserve fund as opportunity offers. The appointment of Mesers. C K. Marshall Martin and F. J. Abbott to the Directorate was confirmed, and Messrs. F. J. Hall and J. F. Cox Edwards were re-elected Auditors.

A contemporary has a description of modern travel on iuland waters that has its serious side, as well as humorous. The Chinese engineer o a worn-out steam-lanuch 80 li above Hankow, when his engines made alarming no see, ran the launch ashore, raked out the fir-, speut three bours tinkering, re-filled the boiler, and went on again. The passengers were far from happy.

#### RICE.

Salgon, 28th July 1905. Messrs. Wm. G. Hale & Co.'s circular states: Our market closes dull and in the absence of any real demand, millers, in order to keep their mills running, [are cutting down their mill hire to secure business. As for the price of Paddy it has not given way, but owing to the next to no mill charged.

#### YARN.

Mr. Eduljee, in his Report, dated Hongkong 11th August, says: - Demand from the country still holds off, and importers have experienced a much quieter fortnight, and at the close offers have been reduced by \$11 per bale all round, but we make no alteration in our quotations which for the time being, are nore or less nominal. The few sales noted below are all more or less forced, and were made during the first days of the interval and include a large proportion of goods on the spot for urgent and immediate requirements. Deliveries have been small during the interval while receipts have been above the average, and our stock shows a considerable increase on låst report. The Bombay market is reported firm with but little offering.

Local Manufacture: - Nothing doing: the Mill having sold well forward can afford to wait ! -developments.

Japanese Yarn: The only lusiness in these threads during the fortnight has been the sale of a parcel of 200 bales Kurashiki (Three horses) No. 16s at \$138.

Raw Cotton:—The demand has unexpectedly \*ubsided, but a very choice parcel of 150 bales machine-ginned Surats has found buyers at \$261. Stock about 3,000 bales. Nothing doing in China

China \$24 to \$27. Exchange on India, after keeping steady during the whole of last week, shows a slight advance and closes to-day at Rs. 1411 for T/T and Rs. 1414 for Post. On Shanghai 712 and on Japan 923.

The undernoted business in imported and local spinnings is reported from Shanghai during the fortnight ended the 19th ultimo, viz:-

Indian:—There was not much enquiry during the first week of the interval and at the close demand had temporarily subsided. Prices generally, however, have been kept fairly steady, No.20s showing, here and there, a slight advance. Total sales 4,151 bales with an estimated stock of about 55,000.

Japanese: -- Continue in strong domand and values have appreciated. Total settlements aggregate nearly 2,000 bales; No. 16s fetching Tls. 95 to 1031 and No. 20a Tls. 106 to 113.

Local:-The market is quiet but firm and sales reported amount to 2, 00 bales on the basis of Tls. 85\ for No. 10s, Tls. 87\ to 88\ for No. 12s, Tls. 891 to 91 for No. 14s and Tls. 90% to 924 for No. 16s.

#### PIECE GOODS.

Messrs, Noel, Murray & Co.'s Report on the Shanghai Piece Goods Trade, dated Shanghai, easy" awaiting development of the absorption 3rd August, 1905, states: -The market is in a scheme, which is now not generally looked upon state of absolute stagnation. The intense heat as the "dead cert" it was at its initiation. that is still prevailing over the whole of the [ Cantons have been placed in small lots at \$325, Yangtsze Valley, apart from anything else, is and close steady at that rate. North Chinas sufficient to account for a good deal of the apathy | and Yangs'zes quotations are taken from Shangdisplayed, but the boycott on American goods is thai, also doing much in that direction and is seriously complicating the situation. Its ramifications are extending so rapidly that already the originally intended proviso that goods previously ordered should be exempt is inoperative, for the reason that consumers now refuse to take them. It is also having an adverse effect on Manchester goods because buyers in Country are not always sure which is which, and so, are abstaining from buying either. Clearances have, under the circumstances, not been so had, but the steamer companies are commencing to complain of a falling off in the applications for freight. The River trade is very dull again, the demand even ! for Yarns showing considerable shrinkage. The home markets keep very strong with quotations practically unchanged. Cotton has again been subject to some fluctuations, the latest public quotations coming 6.10d., but we understand private advices received yesterday made it 6.05d. The export of Plain Cottons from Manchester! time of closing, however, a firmer feeling is last month was 41,000,000 yards to Hongkong apparent and shares have been placed in fair and China, and the export of Yarn to Shanghai; lots at \$215 for seltlement. Luzons remain has 2,300 bales. Dealers in American goods i neglected with no buyers. wave another grievance against the ocean harrying service of that Country. Goods, already jout business. Raubs continue with sellers at eate, and shipped per s.s. Manchuria from San i 23 Messrs. Hughes and Hough, in their Coal Francisco, just to suit the convenience of certain i The Yarn market in quiet at the moment, but at the same time is undoubtedly strong. Indian shewing a steady advance, notwithstanding sellers of some of the favorite Japanese spinnings have not been able to maintain the abnormally high prices that were attained. The scarcity of Indian No. 20s is, however, having a beneficial effect

on prices, which must be very near the record. Local Spinnings could be sold, but most of the Mills have nothing unsold-for some distance ahead. Cotton is excier and lower prices are expected if the Japanese mills abstain from buying a little longer. Piece Goods. - The interval has ben devoid of interest, private transactions being reduced to a minimum, for the simple reason that scarcely any Manchester goods of a suitable nature are for sale on the market. The well-known Auction chops are, bowever, holding their own and will serve to keep the pet boiling, there being no doubt about their place of origin. An attempt to dispose of some damaged American Domestics in that way was a rank failure, the audience simply abstaining from bidding, and this was really the beginning of the actual state of things. Forward husiness is practically at a standstill, prices in Manchester being so strong, even for the long delivery required, when the question of Exchange enters seriously into the calculation. Nothing in fact has been done except in a few special Fancies in retail quantities.

#### SHARE REPORTS.

Hongkeng, 11th August. 1905.— Although rates generally speaking have ruled firm, on a fair demand for stocks, and in most cases show improvements, business has been slack, and beyond a flutter in China Sugarsin the early part of the week we have nothing of any importance to report. Forward business is moribund and shows no signs of recovering.

Banks.- Hongkong and Shanghais have ruled rather weaker with sellers at 8915, and reported small sales at Solo; the London rate remains unchanged at £89, 10s. Nationals remain unchanged and without business.

MARINE INSURANCES.—Unions have been placed at \$735 and close with probable further buyers at that rate. China Traders still "stand

] IRR INSURANCES. Hongkong Fires have been in demand at \$32, but holders refusing to part under \$3'() a small sale has resulted at that rate. Chinas continue dull and without business at \$85.

Shipping. Hougkong, Canton and Macaos have changed hands in fair lots at \$261 and close firmish at 827. Indo-Chinas, after small sales at \$934, gradually advanced to \$96 with little or no business at intermediate rates, the market closing at \$95½ to \$96; the latest quot tion from hanghai is Tls. 673.

REFINERIES.—China Sugars in the early part of the week were negotiated at very erratic rates from \$245 to \$250 for the settlement, and from \$244 o \$247 cash. Later on the market quieted considerably, and offers to sell at \$244 for the satt'ement met with no response. At

DOCKS, WHARVES AND GODOWNS.-Hong. keng and Whampoa Docks have changed hands during the week at \$195, but close firmer with beyers and no sellers at \$196. Kowloon Wharves continue in demand at \$100 and sales are reported at \$1021 holders asking higher rate at time of closing. Farnhams have ben placed locally at Tls 14' and 141. The latest Shanghai quotation is Tls. 140.

L NDS, H TEL: AND BUILDINGS.-A continued investing demand for Lands have further nest the rate up to \$123 at which shares are now enquired for; a few shares are obtainable forward at an equivalent rate, but no suitable buyers come forward. West Points have also improved with an investing demand to \$56 without bringing out any shares. Humphreys | published by the stockbrokers at Osaka, are com- October. Indo-Chinas. A small business is rehave been placed at \$12.50 and \$121 and close. with sellers at former rate. Hongkong Hotels were in some demand in the early part of the . week and a few lots changed hands at \$146 for ' cash and at \$153 for December; the market closes. with probable buyers at \$147.

COTTON MILLS.—The Shanghai quotations! - come firm: Hongkongs are wanted at \$15½ cash.

MISCELLANEOUS .- China Providents have risen to 89 with sales. Green Islands to 828 after sales at  $826\frac{1}{2}$ , 827 and  $827\frac{1}{2}$ . Watsons to 8133 after sales at \$13 and \$134. Steam Waterboats have declined to \$113. No other husiness or changes to report under this heading.

Messes, J. P. Bisset & Co.'s Share Report, for the week ending August 3rd, 1905, states: What with the settlement occurring on the 28th and 29th and the two holidays on 31st ult, and 1st inst., the business week has been so completely broken that we have very little business to report. The principal stocks dealt in have been Docks and Wharves. Both these stocks show a rise. Farnhams have been placed at Tls. 143 and 141 for cash: Tls. 145 September, Tls. 146 October, and Tls. 149, 1481, [ and 148 December. At closing the market is ! at Tls. 149 for December. Wharves opened on the 28th and 29th at Tls. 195 and 1974 December. On the 2nd August Tls. 190 and 1921 cash, an unexpected turn for the better.

Tls. 195 September, 197 and 1971 October, 1981 Nevember, and 200 December. At closing the market is strong with buyers, and we hear a transaction has been put through at Tls. 198 for pared with the corresponding date at last year ! ported at Tls. 66, 661, and 67 cash ; Tls. 69 October, Tls. 70 70 and 71 for December. In Latu Kung Mows Tls. 60 for December, and Ewos Tls. 50 for October. Municipal 6 per cent. debentures have been placed at Tls. 99 and are wanted at this rate. This constitutes most of business of any interest put through during the week. The T.T. rate on London to-day is 2/74.

FREIGHTS.

Messrs. Wheelock & Co.'s Freight Market Report, dated Shanghai 3rd August, 1905, states:-Our Homeward Fr izht Market remains in much the same state as when last writing, although there are indications that cargo should be coming forward more plentifully in the not far distant future. Coastwise: As was only to be expected there is no improvement to report on the coast-in fact. rates are weaker, if anything, as there is no outlet visible for all the superfluous tonnage now in steady with buyers at Tls. 141 for cash and sellers | Eastern Waters. We are afraid owners will soon have to consider seriously the advisability of ordering some of it home again, unless things take
